2012: 23 %
2013: 11 %

Animations

Some examples for useful animations

Animations can be used here to fade in the process steps one after another (note: animation effect works only in Powerpoint version and cannot be recreated in this pdf version)

Animations

Some examples for useful animations

Animations can be used here to fade in the answers one after another (note: animation effect works only in Powerpoint version and cannot be recreated in this pdf version)

Do you know the ten most important rules for delivering complex projects successfully (i.e. in time, budget, and quality)?

1. Carefully define the scope and agree on it!

2. Involve all relevant stakeholders early on!
