

The inner frame

Don't cross those lines!

1. „Invisible“ guidelines that help you place your objects on the slide without getting too close to the page margins. Make sure you never cross those lines!

2. To get those lines, just make a right mouse-click anywhere on the slide. Choose „Grid and guides“. Also, you should click „ruler“ here in this menu to be able to adjust your guidelines evenly.

3. Then choose „Guides“. You can move the guidelines by dragging them with the mouse. You can also duplicate the lines by clicking on them with a left mouse-click and pressing „CTRL“ at the same time, then drag.
